

STUDIO  
ACUSTICO

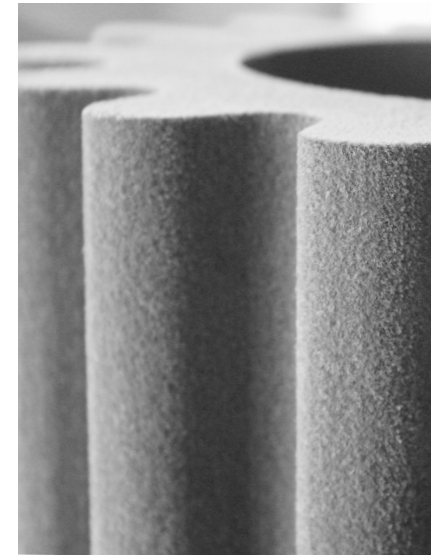

2022 Retail Catalogue

ACUSTICO LIGHTING is a Melbourne based design studio with the intention of designing for sensory types.

There is a strong use of sound absorbent materials which bring about a sense of calm in the living and working environment. We start with getting the feel of a space and peppering it with colours, textures, sounds, smells and materials that create a sensory serenity.

## Acustico at its core

### **Calm**

We design to create spaces with reduced noise, ensuring sound friendly environments.

### **Product Stewardship**

Our sound absorbent materials are Global Green Tag certified. We have an end-of-life management program, which commits to upcycling 80% of materials.

### **Multi award-winning design**

Our lighting has been recognised nationally and internationally. Highlights include Good Design Award (Gold winner), LIT Award (USA) and Victorian Premier's Design Award (finalist).

### **Local**

Our products are Australian designed and made.

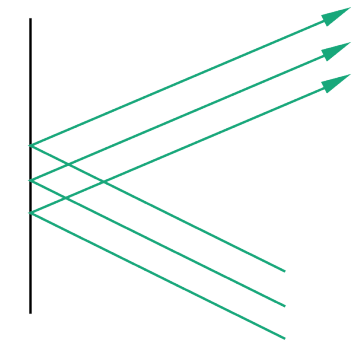

**MATERIALS & CONSTRUCTION**

Our lighting is manufactured and assembled with care in Victoria.

# Creating acoustically calm spaces

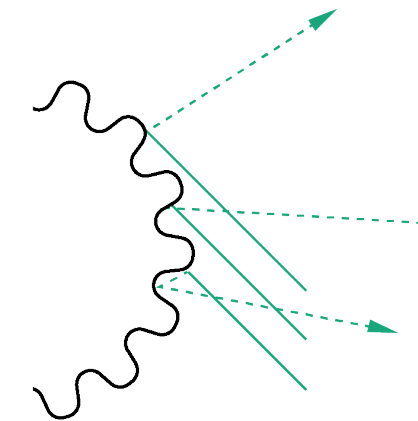

Acustico Lighting absorbs and diffuses up to 30% of sound, according to independent testing.

Our Opera Pendants are designed with curves that diffuse sound, while the surface itself has absorbent properties due to its softness and open cell structure.

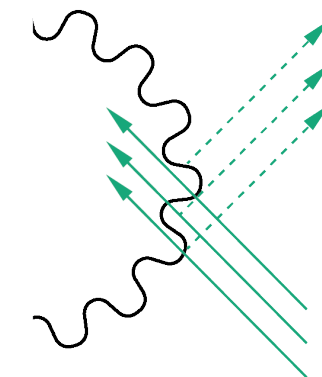

**Untreated hard surface**

Sound bounces directly into the space, creating reverberation.

**Undulating, dimensional surface**

Sound is scattered by the uneven surface, diffusing into the space.

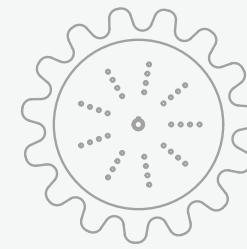

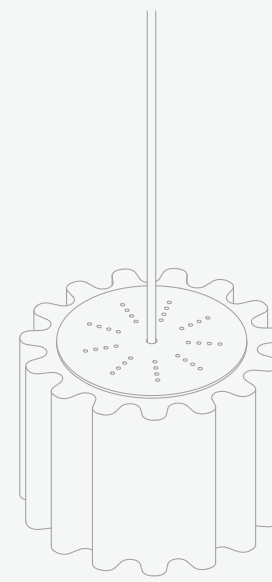

**Sound absorbent surface**

Sound is absorbed by the surface, limiting the amount bouncing back into the space.

Undulating curves are designed to absorb and diffuse sound.  
The soft, velvety surface is uniquely textured, becoming a cosy addition to a space, whether a bustling cafe, office, or tranquil residence.

**SMALL OPERA PENDANT**

Suspension Weight: < 1kg

Input Voltage: 240v

Suspension Canopy Colour: Champagne

Cord Colour: Light Grey

Dimmable: Yes

Globe Replacement: G125 LED Filament Bulb, 8W

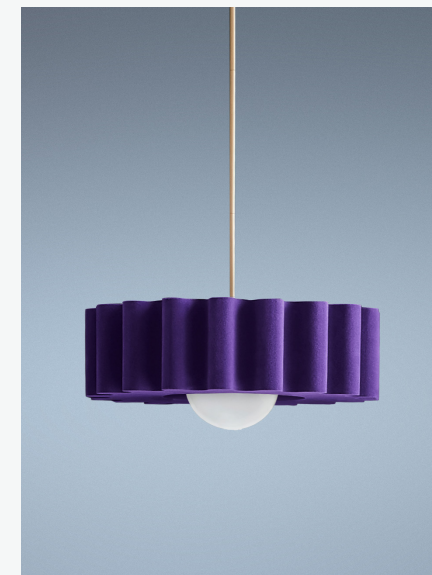

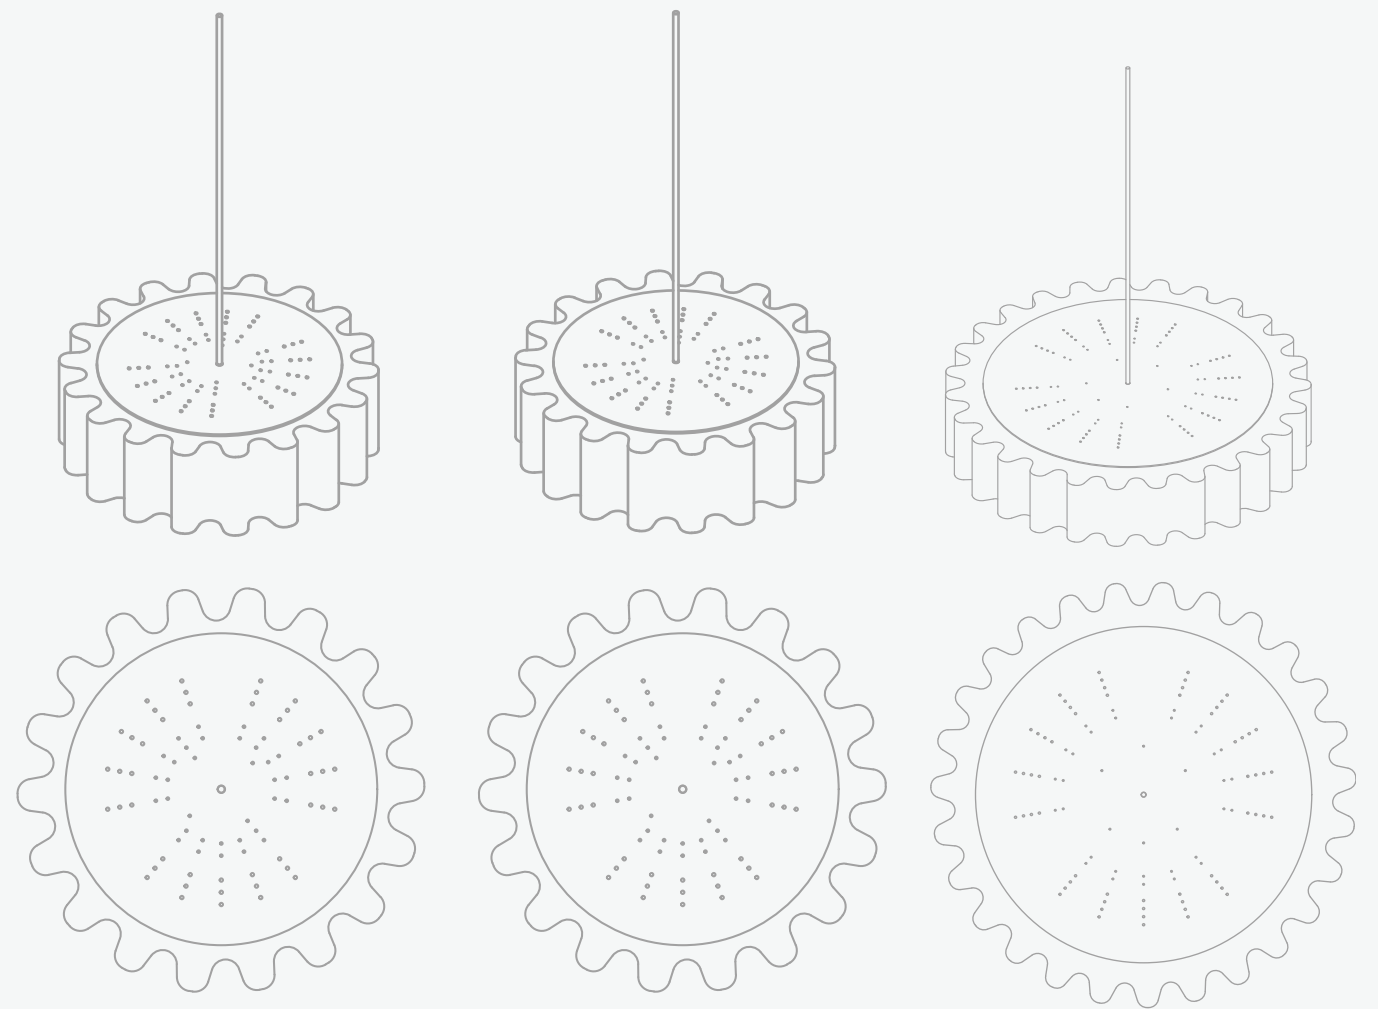

Globe Lifespan: 25,000 hours

Luminous Flux: 820lm

CRI: >90

Box dimensions: 310x310x310mm

- COLOURS:
- BURNT ORANGE
  - VIBRANT PURPLE
  - ROUGE
  - MUSTARD
  - VIBRANT GREEN
  - LIGHT GREY
  - STEEL BLUE
  - OLIVE GREEN

Boasting a range of great colours and made from high quality, Global Green Tag certified materials.

Happy, healthy and productive people are the result of a calm environment.

## BRUTALIS

The Brutalis Linear Pendant's brutalist appearance emulates a monolithic concrete form, yet is actually made from recycled car tyres.

The crumbed rubber granules give good acoustic performance in the mid-high frequency range.

### BRUTALIS

1800mm

Suspension Weight: < 6kg

Input Voltage: 240v

Dimmable: Yes

Colour temperature:

3000k / 4000k

Luminous Flux: ?

CRI: >80
